EXECUTIVE CULTURAL COACHING

ADAPT. PREPARE. PROSPER.

While traditional workshops may be effective to develop a general baseline of cultural competence, your business has specific objectives and you need specific insights on high visibility projects. Whether it is a critical overseas negotiation or a highly publicized product roll out in a new market, ICCM will provide you with the preparation and practice that will position you for global business success. ICCM coaches will spend time with you to gain an understanding of your business, your goals, and your learning preferences. Our cadre of coaches will then partner with you to design a personal curriculum tailored to your needs, work with you one-on-one to help you meet your international business objectives, and help you track progress towards your goals. Rather than traditional coaching that works on a long-term retainer basis, our executive cultural coaching relies on targeted event-based interventions that allow you to focus on a specific international challenge.
