AQUACULTURE, BIOLOGY & CONSERVATION
Summer Camp 2016

Topics will include:

• Seahorse and clownfish farming
• How to conduct a science experiment
• The power of algae for fuel and food
• How to cook a lionfish

The Vero Beach Marine Laboratory is offering five days of fun, hands-on learning activities built around seahorses, clownfish, corals and much more! Campers will enter the world of Florida Tech’s aquaculture and conservation biology professionals.

Cost of Camp:—$400 per camper
Tuition includes transportation to and from field trips, light snacks and a T-shirt.
Please Note: Campers are responsible for providing their own lunch.

Camp Dates
Session 1—June 27–July 1, 9 a.m.–3 p.m.
Session 2—July 11–July 15, 9 a.m.–3 p.m.
Students entering 6th–8th grade are invited to enroll.
