

Applications of visiting scholars are highly welcome.

Please send your application to **aschoedel@fit.edu** including the following:

- Cover letter
- CV including a list of publications

We offer you the opportunity for cutting-edge research that is non-traditional and has elements of inorganic, organic, physical chemistry or even biochemistry. The focus, of course, depends on your particular interests so you can pursue research projects that are highly rewarding and can ultimately lead to high impact publications.

Florida Tech is a Tier 1 Best National University (U.S. news and world report), ranked 17<sup>th</sup> best small university worldwide (Times Higher Education) and #1 national university for fostering international student experience. The university seeks to expand knowledge through top-tier research in a culturally diverse environment and prepares individuals for entering the global workforce or seeking higher-education opportunities.
